# Get paid by your *couples*

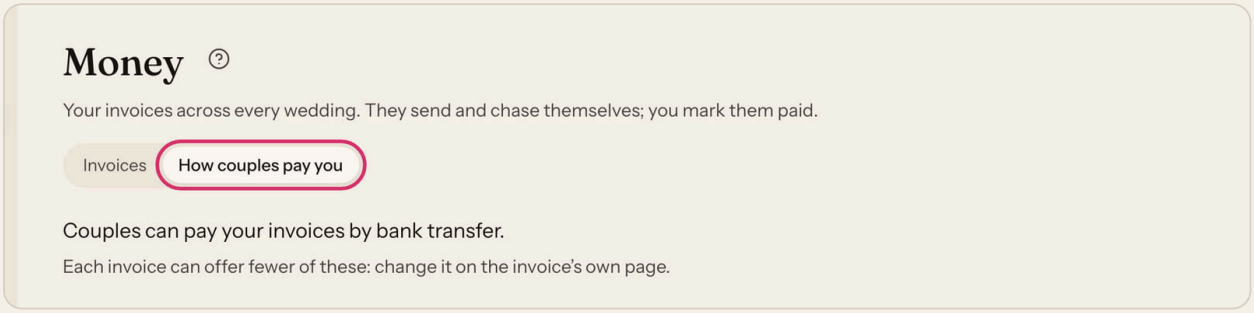

*Your invoices tell couples exactly how to pay you, and only the ways you take.*

On the Complete plan your invoices say how to pay you, and offer only the ways you take. It is all on Money: press How couples pay you, where each way has a switch and its setup beneath it. Only the workspace owner can change it.

Follow the steps for what you use: **Bank transfer** · **Card, through Stripe** · **PayPal**.

## Bank transfer

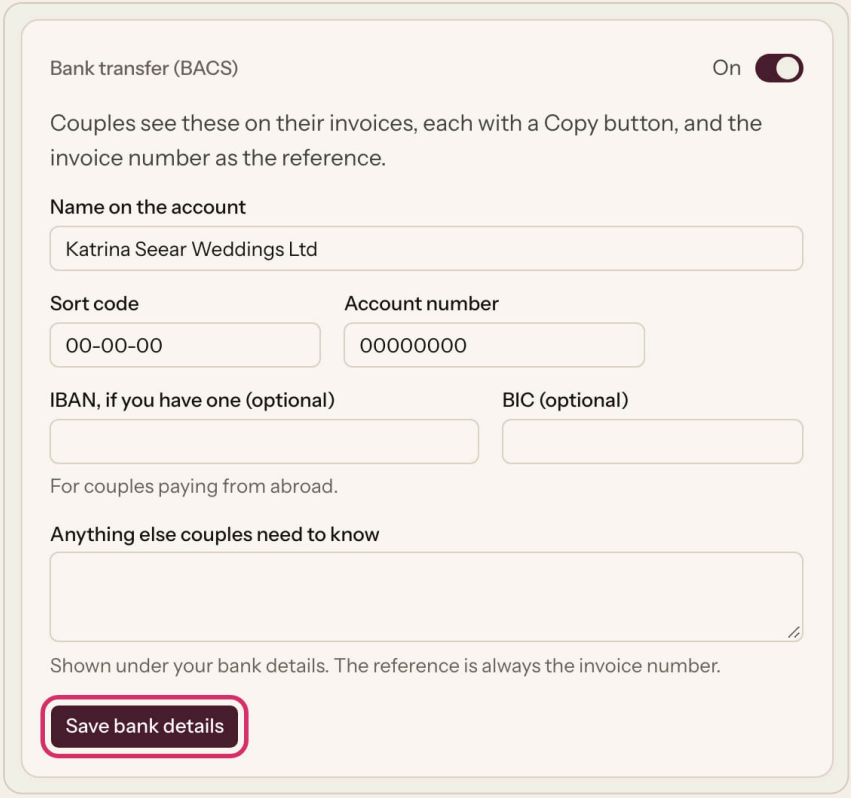

1. Go to **Money** and press **How couples pay you**.

2. Under **Bank transfer (BACS)**, make sure the switch is on.

3. Type the **Name on the account**, the **Sort code** and the **Account number**. Add an IBAN and BIC too if couples pay you from abroad.

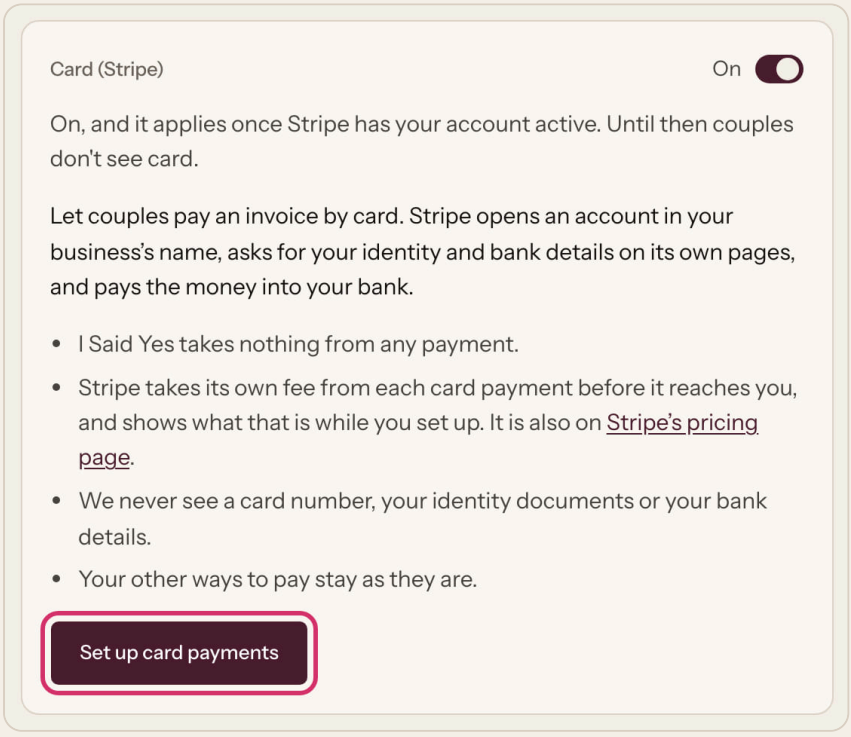

4. Press **Save bank details**. Couples see them on every invoice, each with a Copy button, and the invoice number as the reference.

## Card, through Stripe

1. Go to **Money** and press **How couples pay you**.

2. Under **Card (Stripe)**, press **Set up card payments**.

3. Stripe opens its own pages. Give your business and bank details there, and make your own Stripe login, or sign in with one you already have: we never see any of it.

4. Back in I Said Yes, **Card (Stripe)** says **Stripe active** once Stripe has checked your details. With its switch on, couples see **Pay by card** on invoices still owed. If it says **Not finished**, press **Carry on with Stripe**.

5. For payouts and refunds, press **Open your Stripe dashboard** and sign in with your Stripe login. A refund made there shows on the invoice.

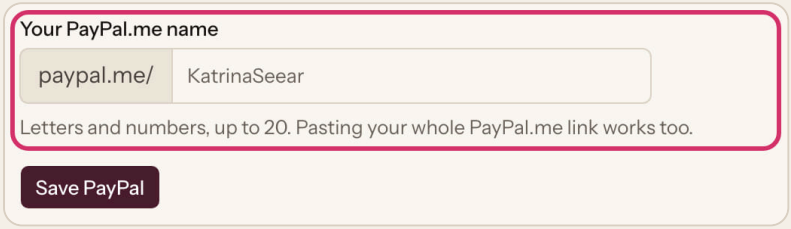

## PayPal

1. In PayPal, make your PayPal.Me link if you do not have one yet.

2. Go to **Money** and press **How couples pay you**.

3. Under **PayPal**, turn the switch on.

4. Type **Your PayPal.me name**, the part after paypal.me/, then press **Check it opens** to see your PayPal page.

5. Press **Save PayPal**. Couples see **Pay with PayPal** on their invoices for what is still owed. The money goes straight to your PayPal, and you mark the invoice paid when it arrives.
