Invite your *team*

Your assistants work in the same weddings as you, each with their own sign-in.

Team members are unlimited on every plan. Each has their own sign-in and works inside the weddings they can see. Only the workspace owner can invite them, and only the owner can change billing or delete the workspace.

1. Go to **Settings** and open **Your team**.
2. Under **Add someone**, put their **Name** and their address in **Email**.
3. Under **Access**, choose **All weddings** if they should see every wedding, or **Chosen weddings** and tick the weddings they work on. **Contact only** keeps their details with no sign-in.

4. Press **Add to your team**. They get an email invitation, and once they accept, they can open what you chose.

These steps were checked on 13 October 2026. Signed in to I Said Yes, the same guide is under **Set up guides**, with your own details ready to copy and ticks to keep your place. It is also at isaidyes.ai/help/inviting-your-team.
